3. What a Population of 7 Billion People Means for the Planet.

"Should student in campus be indulged in politics?"

Youth of today is future of Nation"

When a person is born, no one knows that he may be what in future, what will he do in future, either he will become a leader, mean politician, scientist, engineer, author, player, etc. But his root establish in his youth. In young age, when he sees this world from his own perspective, how will he see this world, it is responsibility of society, Nation, Government etc. But you have not said anything about whether student should indulge in politics in campus or not when student as a child takes admission in school. His mother and also overall his family tell about the school what are you going to school and ~~what~~ friends you have to

The ideas are relevant and good as intro material. But presentation could be better!

make. what you have to do in school.
How to respect the teachers, How to talk
with friends. It is the school where Root
of his future found. It is the responsibility
of teachers, parents, Identify Students
Strong points and weak points, Tell them
about his strong and weak points.

Great
and
edge
idea!

Because after completing schooling
He is going to enter in college life.
In schools also students learn about
his nation and his forefather who fought
for nations, establish Ideals, views
about persons who sacrifice for nation in
past and geographical location of his
nation and also about nation neighbours

good
and
relevant
points!

At college life when take admission
in college either it may be engineering
college, medical college, Law college,
Art & Humanities college. It is the

Remarks

Stage for change and more exposure to society, and world. college life is full of energy for youth. youth age is the age that he can do everything for what himself, for their family, for their society, for their Nation.

young

There are different type of Ideologies exist in today's world. it may be Leftist for Marxism Ideology, Rightist for Nationalistic Ideology. It is time for choosing Ideology and shaping a views as per Ideology.

good grasp and understanding!

Substantial part of this argument is what is politics, How to do politics, How can it benefit society, my college my friends, and overall my Nation.

Politics of Ideology is politics of thought. College life is new stage of student for defining their view because today's youth is leader of Nation in future.

Remarks

Every Human being has mainly three stages in his life: childhood, youth and old age. When a child is born, no one can decide his future; what he is going to be in future, except prediction that he may be an engineer, doctor, scientist, lawyer, politician. A child starts his journey from school and before it, family. Parents send the child to school to learn something. It is the stage where the root of his life is founded. As the potmaker of soil utentists shape every pot as per requirement as same parents & teachers shape the character of children. It is children who learn about their nation and freedom fighters and ideals, symbols of nation and their respect come from their core of soul. It is the foundation of student about their country.

Remarks

When student is in 11th or 12th Standard he decide to make carrier in which field, and path for his college life is decided in these 2 years. he may be to join the Medical, engineering, Law, Scientists etc.

when student as a youth takes entry into his college life where he face more exposure to society, different people of Race, ethnicity, it has been seen that most of the students who go to colleges or joint those institutes which are not in his home town, students have to live without his family.

Youth is the stage of energy, full of passion, enthusiasm, and ready to do everything, we have this type of capability to do.

you should have written at the end of this valuable paragraph "advantages of these processes".

Remarks

It is responsibility of College/University and Government that which type of education in these higher education is going to provide. As Vivekananda said give me four youth, I can do everything for a cause; mean that youth have such type of capability. Now a days also Indian population have a major portion who is under (20-25 yrs) of productive age. As also our Prime Minister Shri Narendra Modi Ji. also lauds for youth their skills and everywhere ~~they~~ ^{He} go in world he lauds our youth age capability.

If we provide our youth to skills, innovation opportunity, ability to think new, it can ~~may~~ be good for nation, and solving our problem for humanity. it depends upon society ~~it~~ ^{it} ~~is~~ ^{is} which direction we want to use our youth energy for development of nation or either else.

Remarks

There are different types of Ideologies occurs in world. It may be left and right approach. Leftist Ideology is that who follows the Idea of Marx. It also called Marxism. Marxism mean as per Karl Marx. Basic Idea that economic equality for all and economic interpretation of history. His interpretation of society is class level. A Bourgeois who owns the means of production and is known as upper class or rich people and other one is Proletariat who works for means of production and who works for Bourgeois and Labourer class. Argument for Marxism is that upper class means Bourgeois that Bourgeois exploit the lower class or Labourer for their own interest. and Marxism want as per Ideology that Rule of lower

Remarks

class means Proletariat. favour of equality in terms of economically. want to fight against poverty, hunger, against the exploitation. it is the factor that poverty, hunger, and exploitation, which impacted the mind of youth, because they also want equality and rights of poor should be fulfilled and every one have right to live with dignity and honour.

It is stage of mind for youth to be sentimental about arguments of ideology. youth should know what their leader are doing in their life. means that "Are they following their ideology which they are preaching?"

second ideology is Rightist, means nation as a pride, respect the national symbols, and also interpretation of history of country with glory and proud feeling proud about their culture, religion etc.

Go make this relevant point you have explained "Marxism" more can be brief while making the main points

Remarks

Rightist mainly focus on global interpretation of History, Culture and Religion.

What is Politics

What is politics? what is true meaning of politics? How do politics affect welfare of Country and overall Humanity? How will impact my College, Campus and me?

These questions answer should be find by Student who are studying in College.

as per mine, politics is exploring their Ideology over others and telling others and influencing others mind about himself Ideology and shaping the views of others as per mine, how much we succeed in to doing this, it is politics.

In one word we can say imposing our ideas over others, our sentiment over others, our views over others.

Role of exposure, interaction and questioning?

Remarks
- Since tax money is used in universities, should of the ruling party or government? Think on the above issues?

you need of the end of paras explaining ideologies - their advantages and disadvantages - can you choose one ideology as better than other for all purposes?

Should education be limited to syllabi and skill?

In past it was stand of government of our country to allow party politics in colleges also except Engineering and Medical colleges also mean to left only professional colleges.

Rational behind this decision was that to generate interest of politics in our youth also. and elections are allowed in universities and colleges. Political parties was allowed and still exist also presently.

Recent events held at a Premier university of Delhi; and a university of West Bengal and J&K a Technical College also. When youth enters in college life they interact with different ethnicity, Religious students.

It was issue that the Anti-National slogan was shouted by some student and also in university of J&K. When India won the match against our neighbouring country anti-India slogans & flag burning of that country also seen in media.

Are these some aberrations or all

the students are indulging in anti-national activities?

Isn't there influence from outside, mainstream political parties in such protests and counter-protests?

Remarks

In the
 campus
 politics
 is
 undemocratic
 or should
 it follow
 leftist
 or
 rightist
 indoctrination
 uncritically
 blindly

what ^{this} show, that shouting slogan against country
 is anti-national. or it is his ~~freedom~~ to
 speech & expression.

what is this, this anti-national sentiment,
 either. it is result of allowing political
 parties to hold election. and demoralized
 interest among students.

Students are enough intelligent to decide
 what they are doing and what they will do.
 it is nothing but politicisation of academia.

Student Age is full of energy and
 passion. and what they will do. they have
 to enough intelligence to do enough
 able to take decisions.

Rational behind politics in Campus is
 to ~~to~~ initiate interest about Democratic
 Politics, building confidence for democracy
 and their institutions. Democracy is
 best of government. Every one rights are
 safeguarded.

Today's student are leaders of nation

Remarks

in future, they will lead in future, they will represent our country at international ~~platforms~~ platforms in future.

As our President Shri Pranab Mukherjee said that Academic institutions should be free for thinking

little more on this.

Finally, it is responsibility of this society to shape the views of youth for welfare of humanity and ~~peace~~ establishment of peace. because politics is nothing but expressing their the view and welfare of people by their views.

The write up shows good grasp and understanding. The structure and focus is also reasonably good!

But in the description part (as written in the margins), you could be more analytical, logical and open minded.

Conclusion is also "less" than desirable. Suggestion part - is missing -

(i) Should there be self regulation or policing?

(ii) Should there be open mind, rationality and tolerance based debate and discussion with place for dissent or ideological indoctrination and obsession?

(iii) Need for compliance to code of conduct.

(iv) Learning to live with differences of ideologies.
