**REMARKS**

Roll No. \_\_\_\_\_

- Q1. Despite the efforts by the Government to introduce new policies, the elderly people lack the social security needed in old age and live with a low social status. What are the lacunas in the programmes and policies related to the old age? (12.5 Marks)

India has around 9.1 elderly population and with changing demographic profile this would further increase.

Govt guided by values of welfare state and social justice has promoted policies like:-

- Old age pension schemes.
- facilities for senior citizens like low cost transport.
- support to those working in this area.
- National policy on old age people
- Annapurna Yojna

Despite these measures with changing socio-economic conditions like rapid urbanisation, nuclear family, health issues (NCD's) changing societal values of individuality - elderly people are facing diverse responsibilities.

As India has 80+ (approx) population

Remarks -

22

Working in unorganised sector which lacks social security

- Women (elderly) face more ~~less~~ problems due to low status in society e.g. - domestic violence

Govt has lagged ~~been~~ behind conceding the future challenge of this section of population

- lack of proper data on elderly population  
Gender wise, geographically (urban, rural)  
do they face different problems.
- This section isn't able to pressurise  
govt to promote their welfare policies  
lack of scarcity of resources which makes it difficult to prioritisation.

which recently govt started debating on  
the new draft policy on old age people.  
which would be a good start and  
would help tackle the future  
challenge.

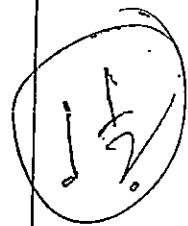

by  
our  
govt

Remarks

- Q2. Is the patriarchal nature of Indian society one of the reason behind very slow rate of decreasing poverty ratio? Illustrate. (12.5 Marks)

Poverty is a multidimensional concept involving lack of education, health, employment, gender inequality etc. In Indian case, Patriarchal Society is one of them. atleast it creates hindrances to reduce poverty.

- patriarchy dominates in decision making like eg:- 11% representation in Parliament - this doesn't allow diversity of opinion to tackle challenge of poverty.
- India has low female labour force participation rate (21%) which hinders contribution of women to development which could help tackle poverty.
- concept of inclusive growth which focuses on getting everyone in fold of development also suffers due to low status of women.
- Low status of women leads to

You must stick to main point of the question only.

Remarks

You answer should be in & around patriarchy. But it doesn't seem to be so.

Issues of lack of health, education, income to women which further poisons e.g. - low nutritional status of mother will lead to child & maternal mortality or a malnourished child who would not be able to fully contribute to his work.

Human Development Report by UNDP also focuses on gender inequality, which concedes -  
Representation in legislature  
Educational status  
Maternal health.  
Report indirectly hints at - for reducing poverty country must focus on promoting gender equality.

Remarks

- Q3. "Forced incorporation of tribal communities into mainstream processes has had its impact on the tribal culture and society as much as its economy", do you agree? Analyse in the context of PESA Act that empowers the tribals to preserve their customs, culture, community resources and customary mode of dispute resolution. (12.5 Marks)

Post independence India focused on tribal integration to mainstream development process by respecting their culture, values, norms etc. This was especially emphasised by Nehru in tribal Panchayat Policy.

Over the years ~~with~~ with development becoming growth oriented, tribes started facing problems of - displacement from forests, lands, ban on collecting forest produce, encroachment by local bureaucracy.

This made tribal people work as agricultural labour, construction workers etc. This forced incorporation led to

loss of culture & economy of tribal people. This was highlighted by Kata committee. e.g.: It highlighted that education system has no link to tribal culture and practices which could help better learning outcomes.

Remarks

Tribal people are indigenous to people of India. Their cultures & societies are to be preserved.

5

Govt took measures like reservation in P.T.S., Govt jobs; 5th & 6th schedule areas, PESA act, ~~forest rights act~~ forest rights act to bring tribals to mainstream process and promote inclusive growth.

- PESA: - provided powers to panchayat (gram sabha) to monitor & promote local development according to local needs.

It provided for

- consent of gram sabha for projects in these areas.
- ownership of community resources, minor forest produce.
- enhanced rights to people (gram sabha) to protect their culture & customs.

PESA along with other acts started a process of inclusive growth suitable to tribal population.

Remarks

- Q4. Prohibiting women entry and worshiping in spaces dominated by male custodian of religion is not just a matter of violating women's equality in matters of faith but also their dignity and continuation of male appropriation of religion. Critically analyse in the context of recent landmark judgment given by Maharashtra High Court.

(12.5 Marks)

Indian society dominated by patriarchal mindset, fosters male domination by prohibiting women entry to temple. This goes against right to equality and religion provided by constitution.

Bombay high court in ~~se shani~~ better Shringar temple case and Haji Ali dargah case emphasized on art 14, constitutu  
and 25 and allowed women to get mal enjoy their rights. What does these ~~mean~~ <sup>mean</sup> ?  
Along with legal ~~rights~~ <sup>rights</sup> prohibition ~~hindess~~ <sup>about</sup> dignity of women,  
by conceding them 2nd class citizens;  
It fosters male domination in society.

Historically temple entry movement by B.R. Ambedkar, Narayan Guru etc. were symbols to break the "injustice" by society on depressed classes.

Remarks

Historical background is  
not required here

In today's context temple entry for women & their movement is also a challenge to patriarchal mindset of society and promote social justice.

With ~~socio~~ changing socio-economic status of society and women, they must be allowed to get their due status in society which will help holistic development.

What are the future prospects of this verdict?

Remarks

- Q5. Assess the role of women in strengthening the Panchayati Raj Institution. How far this has been able to ameliorate the status of women and incorporated them in the mainstream of decision-making? (12.5 Marks).

73rd C.A

Avoid it.

Provides for reservation

of women in PRIs. This, created a

- platform for women to show their leadership skills and change societal norms.

Participation of women in PRIs made

- It truly democratic institution and

- helped strengthening these institutions

- It increased participation of women in gram sabha.

- Women are more vocal about social issues in rural areas. e.g:- domestic violence, child marriage when women is sorpanch.

- Effective participation of women in PRIs has helped increase their status in society as leaders, decision makers.

- This could be seen in works of

- Anti Devi (Orissa), Chhoti Nagaravat (Rajasthan)

- who changed received awards for

Remarks :- You need to discuss various

role of women in strengthening

PRIs.

35

Work:

conceding success of women in panchayat states like Maharashtra, Bihar, Uttarakhand has increased reservation of women upto 50%.

But still the need to work on issues like Sarpanch Pati Raj, ~~present~~ better recognition of work done by women members, changing societal attitude towards women.

These will further strengthen Panchayat institutions and help in effective decisionmaking by women

Seeta Sarpanch

Remarks

- Q6. Despite optimistic outlook towards globalization, globalization has a dark side and has the power to create highly undesirable adverse effects. Analyse the above statement in context of the concept of globalization and its impact on the working women.

(12.5 Marks)

Globalisation stands for free movement of information, values, people, knowledge, goods & services across borders.

It helped in exchange of knowledge, free trade which helped developing countries in terms of economic growth.

It helped bridge skill gap between surplus & definite e.g. skilled labour from India (IT) to western countries.

It promoted global institutions like

G20, WTO, UN for sustainable and development of world.

Globalisation also has negative consequences

- rising inequalities - focus on industry and urban areas at cost of agriculture & rural.
- damage to local culture, displacement of tribes etc.

Remarks

unless  
only

### Impact on Working Women

- created opportunity in new sectors like IT, banking & service sectors ~~where~~
- created awareness about need for women in development, how development needs women eg:- UNO, IMF reports.

There - New values of equality, achievement helped women break traditional norms & seek work opportunities.

### Negative effects

- mainly women in agriculture, MSME, Unorganized sectors got affected most. as these sectors got less attention by govt
- focus on technology (4th Industrial Revolution) isolated affect women badly
  - It promoted values of productivity, efficiency, increasing profit which at times goes against working women
- for women needs maternal leave - non-profitable.

### on Working Women

Refer to model answer

Remarks

- Q7. Regionalism in India has taken the form of parochialism due to socio-economic factors. Substantiate with examples. (12.5 Marks)

Regionalism stands for giving preference to one's own community, language, region etc. at cost of others. In India with diverse socio-economic-cultural status of people this has taken form of parochialism. e.g. rigid mindset, start from perspective etc.

- Socio-economic factors like
  - low literacy which hinders scientific temper, plain bif.
  - Access to development opportunities
  - Feeling of marginalised from mainstream development. e.g.: - LWE affected area, parochialism
  - N-E. India
  - high poverty - deprivation feeling.
  - rising inequalities among people
  - Among states
  - rising unemployment. e.g.: - Maharashtra vs Bihar

These issues creates grievances among minds of people and they start thinking about their own

Remarks

Whatever you write must correlate it with the given context.

Interest at cost of others & national interest.

Eg:-

Movements against migrants in Maharashtra people failed to view work contribution by migrants.

(ii) Tamilnadu-Karnataka Water disputed related violence - parochial political agenda has become hindrance to solve this issue.

As regionalism and parochialism creates hindrance to socio-economic growth of nation govt must focus on tackling these by - focusing on better education, health, balanced regional development, involving people in governance etc.

Remarks

Q8. Will the Smart City Mission and AMRUT lead to Urban Renaissance? Critically assess. (12.5 Marks)

Smart City Mission & AMRUT - both aims to make Indian cities livable by tackling issues like - pollution, urban transport, sewage treatment, better use of ICT, making cities as engines of growth and progress.

Urban Renaissance would involve new values among urban people like cleanliness, effective participation in governance, judicious use of resources, feeling of one among people etc. i.e. smart citizens, will have free thinking.

Focus of both schemes is more on infrastructure creation, economic growth of cities, with help of special purpose vehicle. It lacks focus on people themselves. As renaissance should involve people. (VLSB)

Remarks

degregately  
two  
concepts

3½

- building capacities of citizens through better health, education, platform for participation in governance especially slum people would be key for Urban renaissance.

Both projects are ambitious but it should depend on their implementation with effective people's participation to promote urban/rural renaissance.

Remarks

- Q9. Bring out the relation of globalization with formation of bi-cultural identity. Discuss its pros and cons. (12.5 Marks)

Globalisation which allowed people to freely exchange ideas, views, cultures, values, trade etc. across borders has created bi-cultural identity - one of citizen of country & ~~of~~ other as global citizen.

Define bi-cultural identity

Pros:-

- It enriched culture by contributing to original knowledge, its exchange
- Allowed new progressive views at cost of traditional negative views like humanism ~~as~~ against castism,
- It made ~~more~~ more sense of people are able to identify themselves with local & global
- It allowed people to compare, ~~and~~ accept what is good ~~if~~ reject bad.

32

Cons:-

- ~~It~~ biased cultural identity ~~as~~ people are

Remarks

more favoured towards western culture than their own culture

e.g:- rejection of traditional cultural attires, festivals etc.

Is this the product of bicultural identity?

At times it creates issues of national security e.g. ISIS growth - citizens become more attached to its ideology than local culture.

For better understanding refer to model answer

Remarks

Q10. "Growing  economical disparities in urban setup of India leads to class stratification and a sense of relative poverty." Critically analyse the above statement.

(12.5 Marks)

Economic disparities in urban areas could be seen in growing slums, migrant labours living on streets - urban cities have around 23% population living in urban areas.

This creates issue of ① class stratification.

- Rich living in affluent areas with better amenities while poor in unhygienic conditions in slums.
- Rich getting access to govt offices while poor unable to get basic services like water.
- Divide between old cities & new towns this disparity.

Old - congestion, lack of hygiene, clean environment.

② Sense of relative poverty:-

- Urban poor - mostly migrants are unable to identify themselves within

**Remarks**

Define

economi

inqua

lity

first

affluent city life -

e.g. - Inflation in cities while their income remain static. - though they are APL, but not able to afford basic needs.

- Children of poor not able to get admission in schools due to emphasis on competition, parents backgrounds etc, high fees.

At some time a,

To tackle these issues govt is focusing on

- housing for all by 2022
- Better health & education facilities -

sama shiksha abhiyan, use of LPG etc

- Skill development programmes - component of smart city mission.

Remarks

Q11. The Transgender Persons (Protection of Rights) Bill, 2016 evolves a mechanism for social, economic and educational empowerment of transgenders. Critically analyse how the recent bill aims at developing an inclusive society for transgenders in India.

(12.5 Marks)

*Remarks*

*Remarks*

Q12. 'The new Draft Policy on Women shifts the focus from entitlements to rights and from empowerment to creating an enabling environment.' Discuss. (12.5 Marks)

- Remarks

---

*Remarks*

Q13. Highlight the importance of urbanization as a source of global development and social inclusion.  
(12.5 Marks)

- Urban areas are characterized by
- opportunities of education, employment, health, better living standard.
- New thinking, values, skills among population like - freedom, scientific temper, equality, etc.
- It focuses on achievement values as against ascetic values.
- These factors help global development and social inclusion

#### ① Global development

- urban areas acts as economic growth centers, cities attract FDI, immigrants, educational institution from around world.
- cosmopolitan culture help people to show their skills, views etc

Remarks

(11) Social Inclusion -

- people do not consider caste, community as primary factor but focus on opportunity, skills etc.
- People who face rejection, violence, in rural areas get equal status in urban.
- Women are able to participate in development - mostly education in urban areas more freely.
- Creating livelihood opportunities in urban areas ~~can help reduce poverty~~ should promote.

For these opportunities to happen, it needs proper due policies like Smart City in which will allow people, civil society, govt, private sector to come together & deliver.

Remarks

Q14. Do you think passage of HIV and AIDS (Prevention and Control) Bill, 2014 would prevent stigma and discrimination against people living with HIV. Critically analyse.

(12.5 Marks)

*Remarks*

80

8

**GS SCORE**  
GS MAINS TEST SERIES 2017

Remarks

Q15. Triple talaq, which has been banned in more than 20 Islamic countries is still a practice followed in India. What is the reason behind it? How far the judicial pronouncements in India have been successful in opposing this practice? Critically Analyse.

(12.5 Marks)

Remarks

*Remarks*

- Q16. India ranks very poorly in the latest global hunger index. Why despite the food security act and increased rural spending year after year, India continues to find itself in an embarrassing group? Suggest measures to eradicate this problem? (12.5 Marks)

Global hunger index reflects problems of malnourishment as reflected in stunting, Wasting, low weight among people. India's low rank in these is major concern, especially when country is passing through phase of demographic dividend.

To tackle this challenge govt enacted food security act which covers 75% rural and 50% of population to provide food through PDS.

Programmes like MNREGA, Sarva shiksha Abhiyan, mid-day-meal<sup>FCOS</sup>, Amravata also focuses on improving socio-economic status of people.

Challenges faced :-

- late start - govt started focusing on nutrition late; initially it was focusing

Remarks

You must refer to the model answer for better understanding

(1)

on monetary terms eg:- poverty line

- leakages, corruption in service delivery.  
eg:- PDS.
- Low awareness about provisions leads to exclusion of beneficiaries.
- Low focus on building capabilities.  
eg:- skilling people so that they would not depend on govt.
- Lack access to health facilities.

#### Suggestion for improvement:

- Better targeting - through better database & identification eg:- Aadhar platform.
- Check leakages - use of ICG to monitor transfer of foodgrains - e.g. - experiments of chaitanya govt.
- Integrate ~~paramedical~~ improve functioning of PHCs, integrate Ayush with mainstream medicine practices.
- Women literacy & health should be focused upon.
- Women education is very significant.

Remarks

- Q17. Studies show that in the last 20 years, three inmates on average have been found dead daily in Indian prisons. Discuss the problem of custodial deaths in India and what are the measures that are to be taken to avert this issue? (12.5 Marks)

- Reasons for custodial deaths:- Has it been asked?
- Overcrowding in prisons which at times creates disputes among inmates.
  - Attitude of jail authorities - consider prisoners as barbarian people who should be punished. Read
  - Lack of focus on reformation in criminal justice system e.g.: Work of Kiran Bedi for welfare of prisoners.
  - Political score setting - to silence. question
  - Evidence of wrong doing. Carefully

(21)  
22

- Measures:- As custodial deaths deprives prisoners of their human rights, the measures could be taken.
- Regular inspection by NAPC members.
  - Sensitisation of police about human rights of prisoners.

Remarks

Are you really aware of what you're writing?

- Given faster criminal justice system -
- To give speedy justice - Would help tackle issue of Injustices
- ☞ In this area recommendations of Madras Moron committee should be implemented.
- Society, Jails should emphasis on reformation rather than revenge as police & prisoners & police come from same society.
- Keep prisoners busy by allowing them training in activities like painting, welding etc which will help their future life.

Refer to the model answer.

Remarks

- Q18. Despite adopting gender budgeting there is a widening gender gap in workforce in India. How successful has gender budgeting been in reducing this gap. Critically comment. (12.5 Marks)

Gender budgeting highlights issue that govt actions (policies) have different impact on genders and ~~women~~ other allocation should be special budget for reducing the same gap.

e.g. educational access schemes = SSA - girl child needs special focus - so budget should have special provision for the same.

- MGNREGA - creche facilities,
- Maternity leave

- Gender budget has potential to reduce gender gap in work force as it could focus on
- Better security at workplace or transport facilities - e.g. - Nirbhaya fund, allocation to maternity leave & other benefits.
  - special focus on girl child through Beti Bachao Beti Padhao, Sukanya

How  
is  
it  
related  
to

Remarks

What are the positives & negative aspects of gender budgeting?

gender budgeting?

Sammidhi Yojana etc.

- (ii) Reality There is gap between expectation & reality about impact of gender budgeting & reducing gender gap in work force due to:
- ~~prompt~~ ~~early~~ implementation - policies would show outcomes even better implemented eg:- Nirbhaya Fund & unutilised allocation
  - Understanding about issue of challenges faced by women - as policy makers have low representation of women.
  - Need for change from society itself as gender budgeting only help when society is ready for change
- Discuss more measures needed to reduce gender gap.

Remarks

**Q19.** Examine 'Atal Mission for rejuvenation and Urban Transformation Scheme' with respect to thrust areas focused in the scheme priority. Do you think such schemes will make cities more livens and inclusive as the Mission statement of this scheme suggest?

(12.5 Marks)

AMRUT scheme focuses on regenerating urban areas by providing better public transport, urban amenities like water, sewerage, electricity, sewage treatment etc.

- It also focuses on slum development and rehabilitation, with collaboration of state government.
  - Scheme also focuses on capacity building of ULBs which would be able to provide better service to people.
  - Present situation in urban areas is of - congestion, pollution, deteriorating quality of air, water, etc.
  - Scheme would focus on these and other areas to make cities livable & inclusive.
  - Component of slum development would allow better living standards to urban poor, promoting inclusion to the model.

27

### Remarks

You should refer to the "answer" for better understanding.

- capacity building of urban would help sustain the progress done by their scheme.
- Effectiveness of scheme would depend on how it is implemented, its success on this front would make our cities livable & inclusive.

Remarks

- Q20. To roll out its ambitious JAM trinity plan to directly transfer subsidies to intended beneficiaries and eliminate intermediaries and leakages government has started to link the Jan Dhan scheme, Account numbers and Mobile numbers of individuals. Discuss in domain of JAM trinity, benefits and challenges ahead. (12.5 Marks)

JAM trinity could pave the way for better service delivery, tackling issue of leakages, corruption and in turn would help better socio-economic development of the country.

Benefits :-

- Reduced inclusion & exclusion errors in service delivery
  - Aadhar - better identification
  - Jan dhan - allow direct transfer to account
  - Mobile - Information about services, online transaction etc.
- Would help govt save money and allocate to more productive areas
- effective service delivery would increase trust of people in govt which got affected due to current practices in service delivery

Remarks

### Challenges :-

- (4)
- Access to banking facilities - Some rural areas still lack this access.
  - connectivity - Internet, mobile network for exchange of information.
  - power issues in case of address issue still not resolved. in course.
  - Digital literacy + Banking literacy :-  
Beneficiaries mostly in rural areas, illiterate would face this challenge.  
Economic survey 2015-16 also highlighted these challenges in front of ~~JAM~~ Ministry of eligible beneficiaries.

Identification of eligible beneficiaries

Remarks
