**Essay Test**

1. The increasingly rapid pace of life is creating more problems than it solves.
2. The surest indicator of a great nation is not the achievements of its rulers, artists, scientists, or businessmen, alone.

1. Introduction → A great nation is recognised with its achievements in the field of science, technology, art, culture, business resources, geographical conditions, financial stability etc. To build a great nation, the contribution of each and every citizen of a nation is essential. The contribution comes from the each level of the table of hierarchy. But the persons or personalities sitting at the apex levels in the field of politics, artists, scientists, businesses plays a very important role towards to achieve the goal of a nation as great nation. In addition to that the subordinates and the people who works under them and and the general public also plays a very significant role to build a great nation. The contribution of the rest of the nationals can not be overlooked. Every person of a nation ~~have his~~ plays an important role in his own capacity. For Eg:- The politicians

looks for the normal public, makes policies for the betterment of the citizens, to uplift the poor people, so that they can live a normal life like other people's live. They look on Intra State relations with the neighbouring state so that the relations become better and diplomatic and business activities can be improved and increased. In the same way the artists also plays an significant role to build a great nation by giving messages through their performances to keep aware of the people about the unity in diversity of a nation. The Scientists plays an important role by the technology innovations and advancements in the field of Defence, Space and Technology. The businessmen also plays by producing products for the people's of the nation and fulfill the requirements of the consumers. And also pay taxes in the form of revenue which is further spend by the governments.

Remarks

for the betterment and safety of the nation.

2. In addition to the above, the following are the fields/Organisations/Professions which plays an very significant role to build a great nation:-

(a) Agriculture <sup>& food</sup> - The build a great nation farmers of a nation also plays a very important role. They grow up different crops during the whole year and give food to the each and every person of the nation. If an individual will not eat then how can he give output or how he can work in his particular stream. Food is the basic necessity of a human being and that is fulfilled only by the farmers.

(b) Administration :- Administration also plays an important role to maintain safety, discipline, development of a nation. If a country is internally not Administered

Remarks

systematically then the crime, infiltration, Riots, etc takes place. Hence, a good administration also plays an significant role ~~to~~ to build a great nation.

(c) Defence & Paramilitary forces:- also plays an important role in the safety and security and further build a great nation.

(d) Miscellaneous:- In spite of the above plays a very important ~~the~~ role, there are some more fields/organisations which plays a very significant role. Doctors, Social Activists, Teachers, etc also contribute towards building a great nation. ~~Since~~.

3. Since, all the above plays an significant role to ~~to~~ build a great nation, it is not fair to say that some particular groups, organisations only contribute towards it. It is pertinent to mention that each and every individual of a

Remarks

a nation contributes towards building a great nation. For Example:-

(a) Honourable PM Sh. Narendra Modi has introduced "Giveup LPG Subsidy" scheme. Lakhs of people giveup their LPG subsidy. This results as our nation saves crores of rupees, which further utilizes for the betterment of the nation. It was not contribution by the PM but the initiative by the PM and contribution by the responsible people of India.

(b) Honourable PM introduced "Safai Abhiyaan" <sup>by starting</sup> ~~and~~ ~~himself~~ ~~there~~ on the roadside cleanliness. Many organisations, schools, groups accepted the same and which results now people think about while dropping a single pin on the road.

There are many more examples, but with the above i would like to say that to build a great nation each and every person's ~~of~~ contribution

is required.

4. Conclusion :- I will conclude the said topic by saying that great nation is recognised by his achievements, discipline, science and technology etc. The contribution of each and every citizen of a nation should be recognised since it is not possible to achieve the above achievements by the deeds of a particular group, organisation and individual. It is a collective process by the contribution of the each and every person of the nation. ~~So~~ So, the contribution of other than scientists, artists, rulers and businessmen should not be overlooked. They are also equally responsible for the achievement of a nation as a great nation.

## Idea for Rough Work

---

---

1. *The increasingly rapid pace of life is creating more problems than it solves.*

• What is the Key Idea:

• Restate the issue in other words:

• Points in favour:

• Opposing viewpoints:

- **Examples of obstacles:**

- **Examples of opportunity:**

- **Your position:**

- **Conclusion:- Key Points for conclusion:**

• **Key Themes for paragraph:**

**Paragraph 1:**

**Paragraph 2:**

**Paragraph 3:**

**Paragraph 4:**

**Paragraph 5:**

**Paragraph 6:**

**Paragraph 7:**

**Paragraph 8:**

**Paragraph 9:**

**Paragraph 10:**

**Paragraph 11:**

**Paragraph 12:**

**Paragraph 13:**

**Paragraph 14:**

**Paragraph 15:**

2. The surest indicator of a great nation is not the achievements of its rulers, artists, scientists, or businessmen, alone.

• Key Idea:

To build a great nation, the contribution towards achievement is imposed by each and every single person of a Nation. The contribution of the subordinates to superiors, general public, women, etc cannot be overlooked and even it is not

possible for the authorities at the Apex level to achieve something without contribution of the rest of the people

• Why/Reasons:

(1) Since the general people those who work under the higher authorities, rulers, artists, scientists or businessmen etc are the key people to achieve a certain goal.

(2) If out of the total population of the nation, half of them contributing towards ~~the~~ development of the nation and ~~some~~ <sup>rest</sup> are not, then a nation can not become an ideal nation.

• View points:

(1) Its a contribution of each and every citizen of a nation not a particular group or organisation or individual

(2) The base a great nation is their responsible citizens

(3) It is also important to mention that the apex authorities alone can not achieve without the positive support of the nation.

- Opposing view points:

↳ If we look in the history, the battles and wars loose/won by any nation is remembered with the name of the Emperors. But the Army Generals (Senapati) and the Sepoys are not remembered by anyone except few. The contribution of the AG's & Sepoys can not be overlooked since they have given their lives to save a nation.

- Concluding Remarks:

There is no doubt that the Apex authorities are fully responsible for the overall process but the contribution of the subordinates and normal citizens of a nation cannot be overlooked. Hence, it can be achieved by the contribution of each and every one of the name; not by a particular group, organisation, professionalists, religion etc.

• Key Themes for paragraph:

Paragraph 1: Introduction - The role of citizens of a nation towards its achievements and its

Paragraph 2: ~~Other fields contribute towards the said topic.~~  
Why contribution of each and every person should be recognised
